

DESCRIPTION

EP120 is a completely independent robot cell that, with the help of safety scanners, controls the robot's speed depending on the operator's position. The product is a standard equipment but has excellent opportunities for easy customer adaptation to specific products and demanding needs.

PRODUCT SPECIFICATION

Capacity	< 12 picks/min
Availability	96%
Material	Lacquered
Robot	ABB IRB2600

OPTIONS

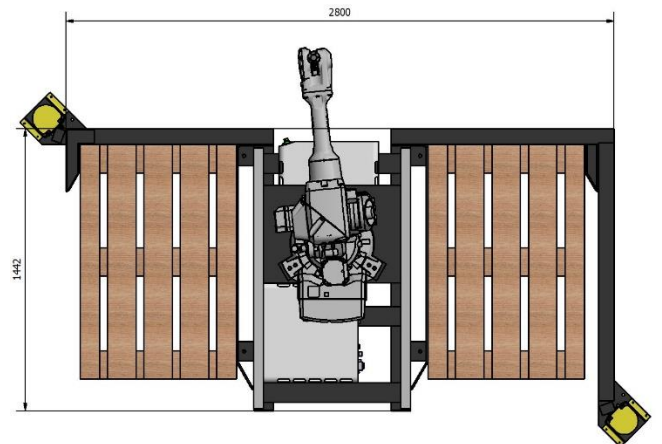

PLC	Siemens
Classification	Selected zone
Service agreement	Annually
Distance support	EvoConnected
Training	EvoTraining
Product number	Selectable
Commissioning	Custom

TECHNICAL SPECIFICATION

Current	25 A
Air	500 L/min
Width	1 400 mm
Length	2 800 mm
Height	2 200 mm
